ASTRILL VPN · INDEPENDENT GUIDE

Router setup checklist

Protect every device on your network, including TVs and consoles.

Prepare

[ ] Confirm your router model and firmware are on Astrill's supported list.

[ ] Log in to the router admin page and export a full settings backup.

[ ] Write down your Wi-Fi name, password and admin password.

[ ] Plan for 30 to 60 minutes of downtime.

Set up

[ ] Follow Astrill's official router instructions for your exact model.

[ ] Enter account details only on the router admin page, never in third-party tools.

[ ] Restart the router when instructed.

Test

[ ] Check the IP address from a laptop, a phone and a TV or console.

[ ] Run a DNS leak test from at least one device.

[ ] If something breaks, restore the backup you exported.

Get the genuine Astrill Vpn app from our download center: https://astrillvpn.app/download . This guide contains no software. It was written by https://astrillvpn.app, an independent website that is not affiliated with, owned by or endorsed by Astrill. App screens and options can change between versions.
